Suite A1/674 Old Princess Highway
Sutherland NSW 2232

18 April 2024

Dear Neighbour

We understand the distress experienced by our Coalcliff neighbours as a result of the April 6 major storm event

We are working hard to see how we can lessen stormwater runoff from our site. We are also keen to work with the relevant authorities to better manage drainage on Lawrence Hargrave Drive. We believe better drainage along the western side of Lawrence Hargrave Drive, both north and south of our entrance, would lessen storm water impact on nearby properties.

We would like to keep you informed of the actions we are taking, and provide other information we believe is relevant, through Coalcliff Coke Works community newsletters.

We encourage to send us your details so we can understand how you are affected by stormwater and so we can provide you with updates. We would value knowing your Coalcliff address, preferred email address and if you are willing to provide it your best contact phone number.

Our email address is: info@coalcliffcokeworks.com.au

Website: coalcliffcokeworks.com.au

I do want to assure you that we inspect our drains according to a formal schedule. Our key drains are inspected weekly and after significant rainfall events, and we clean blocked drains as soon as we become aware of them.

Finally, if you have particular concerns, comments or suggestions, please don't hesitate to reach out to me.

Kate Strahorn
Director
